2018 BEST PRACTICES DEEP DIVES

JANUARY 2018

➤ 2018 Megatrends: CRM Predictions From Top Industry Experts

Every January, *CRM* magazine offers industry experts the chance to make their predictions for the upcoming year and discuss what they anticipate will be the major trends and themes and how they are positioning their solutions to leverage the market's direction. This special installment of *CRM's* Best Practices series is a perennial favorite among our readers and provides them with an insider's preview of what will be the driving trends in the ensuing 12 months.

Roundtable Date: February 14, 2018

➤ Optimize Your Workforce: Intelligent WFO Strategies for More Productive Agents

Creating good customer experiences in a contact center environment should really start with creating great agent and supervisor experiences. More effective training and coaching, combined with easier access to tools and information to help agents do their jobs better and more efficiently, create better customer experiences, more productive agents, and less agent turnover. Join us in this month's Best Practices section and give our readers your recommendations for more intelligent WFO solutions.

Roundtable Date: June 20, 2018

FEBRUARY 2018

➤ Voice of the Customer Programs: From Listening to Action

According to Gartner Group, nearly 89% of companies are primarily competing based on the level of customer experience (CX) they provide. Voice of the customer programs are critical for helping businesses gauge their level of success or failure, enabling them to make adjustments and improve CX. Join us in this month's Best Practices installment and give your best advice to readers grappling with these issues.

Roundtable Date: November 7, 2018

➤ The State of IVRs in 2018: Speech-Enabled IVRs Are Thriving

The backbone of many organizations' customer service has been their interactive voice response (IVR) systems, whose customer-serving contributions may have been overlooked as new channels were added. But IVR still accounts for much of the heavy lifting when it comes to self-service, and that won't change anytime soon. Join us in this month's Best Practices installment, where we present our readers with reasons to continue investing in IVR as the cornerstone of customer experience initiatives.

Roundtable Date: March 14, 2018

MARCH 2018

➤ Intelligent Contact Centers in 2018: An Industry Update

Intelligent contact centers are a reality in 2018. Big Data, artificial intelligence, smart call routing, omnichannel service, and operational excellence are not only possible but demanded by discerning clients. In this installment of *CRM's* Best Practices, we offer our readers guidance on how to create an intelligent contact center in 2018.

Roundtable Date: April 4, 2018

➤ Actionable Insights With Predictive Analytics for Marketers

Traditional marketing analytics or scoreboards are essential for evaluating the success or failure of past marketing activities. But today's marketers want to be able to predict how future programs will fare before they are launched. Enter predictive marketing techniques, like predictive modeling for customer behavior, predictive lead scoring, and all sorts of marketing strategies based on predictive analytics insights. Join us for this Best Practices topic and provide forward-thinking marketers with the information they need to meet the promise of predictive analytics.

Roundtable Date: May 9, 2018

APRIL 2018

➤ Knowledge Management: Crucial for Customer Service Success

Knowledge management (KM) can make or break your organization's delivery of customer service. Not only can it impact productivity and profit, it can also affect customer and agent satisfaction. KM done right in customer service can increase customer (and employee) satisfaction, reduce costs, and improve all sorts of efficiencies when dealing with customers. Creating a KM culture within an organization is dependent on the tools and strategies you select and their ability to drive true business impact with ease and accuracy. Join us in this month's Best Practices installment and give your best insights to our loyal readership.

Roundtable Date: June 6, 2018

➤ The CIO's Role in CRM: Indispensable Partners in Business Decisions

In many ways, the CIO's role has changed dramatically in the past few years as more cloud-based technology has come online in sales, marketing, and customer service departments. The traditional role of ensuring technology is deployed on time and on budget has been expanded to include creating value from investments in CRM technologies and related infrastructure. Join us in this month's installment and share your perspective on how CIOs can partner with their counterparts in sales, marketing, and service to derive more value from customer-facing technologies.

MAY 2018

➤ **Smooth Customer Journeys Deliver Smooth Customer Experiences**

Creating smooth customer journeys starts with mapping the various stages that customers must follow on the passage from prospect to customer to service client or repeat customer. These journeys can be simple or quite complex, but every customer journey needs to be carefully examined and scripted to ensure the experience is smooth and customer momentum is sustained. Join our Best Practices installment and share your insights, case studies, or experiences on improving and refining customer journey efforts.

Roundtable Date: March 21, 2018

➤ **What's Hot in Sales Enablement**

Sales enablement tools have had a huge impact on productivity and revenue in recent years. Many companies have done a much better job of providing salespeople with the tools to spot opportunities and the information to close deals. Searching for marketing content, cobbling together contracts, and looking for the most promising prospects can be accelerated with stronger sales enablement strategies and technologies. If your company has a sales enablement solution, tell our readers how they can speed revenue growth and close bigger deals using your solutions and processes.

Roundtable Date: September 12, 2018

➤ **The Fundamentals of B2B Marketing (Roundtable Only)**

Join us on this roundtable webcast, where we go over the fundamentals of business-to-business marketing. We are covering everything from account-based marketing and content marketing for lead generation to SEO and sales and marketing alignment.

Roundtable Date: May 23, 2018

JUNE 2018

➤ **Smart Customer Service That Wows Customers**

Great customer service starts with viewing all touchpoints through the perspective of your customers. Any process or technology gaps need to be identified and addressed. In this month's Best Practices installment we look at how organizations can scan their customer service efforts and plan for improvements that will fix the gaps and wow their customers.

Roundtable Date: July 11, 2018

➤ **Getting Big Data in Shape: Quality, Cleansing, and Data Management**

What shape is your data in? Is it ready to support the business analytics initiatives you're planning in 2018? In this Best Practices topic, we are looking for recommendations that our readers can use to prepare their data to provide relevant insights. What are the issues that need to be addressed when improving data quality, cleansing imperfect or incomplete data, and creating a master data management strategy that will yield meaningful results? This installment focuses on all of the issues affecting data quality.

Roundtable Date: April 25, 2018

JULY 2018

➤ **Transforming Customer Service With Artificial Intelligence**

Artificial intelligence and machine learning technologies in customer service and other customer-facing departments have attracted a lot of attention in the past year and a half. One study shows that 80% of companies plan to incorporate AI into their customer service departments by 2020. Whether it's AI-powered bots or AI assisting a human agent, the technology promises vast improvements in everything from first-call resolution to shorter handling times, leading, of course, to resulting improvements in service and experiences. Join us for this new Best Practices topic and advise our readers on making the transition to incorporating AI in customer service.

Roundtable Date: September 26, 2018

➤ **Customer Communications Management: The Cornerstone of Customer Interactions**

Communicating with customers is the goal behind most of the large initiatives organizations have started in the past few years. Customer experience, omnichannel support, and all manner of relationship building happen through good solid communications. But managing the process of delivering personalized, consistent, and compliant communications to customers through many channels and devices can be extremely difficult. In this new addition to *CRM* magazine's monthly Best Practices topics, we take a look at how and why a comprehensive CCM solution can improve all customer relationships.

2018 BEST PRACTICES DEEP DIVES *(cont.)*

AUGUST 2018

➤ **Mobile Customer Service: The First Line of Service**

As smartphones have clearly become the preeminent mode of communications, the notion of delivering customer service via mobile devices has really taken off. Searches on mobile devices will exceed those on desktop computers by 28 billion inquiries in 2017. Sixty-three percent of U.S. adults use mobile devices at least several times per month to seek customer support, and 90% have had poor experiences doing so. Clearly, there is much work to be done in improving the mobile customer service channel. Join us in this Best Practices installment and present your case studies, recommendations, and strategies for delivering amazing customer experiences on mobile devices.

Roundtable Date: May 2, 2018

➤ **Advanced Analytics for Better Customer Experiences**

Can delivering better customer experiences improve revenue and shareholder value? You bet. But how can companies target areas for improving customer experiences and stay on course while continually improving CX at every stage in the customer journey? That's where analytics solutions become crucial. Join us in this month's Best Practices installment and make your case to our readers on how analytics can help them reach their strategic goals and differentiate themselves with continuous CX improvement.

Roundtable Date: October 24, 2018

SEPTEMBER 2018

➤ **2018 Contact Center Innovations**

Our contact center innovations installment is perennially one of our readers' favorite Best Practices topics and a great opportunity to alert our audience to all of the breakthroughs occurring in contact centers during the previous year. Past innovations have spotlighted social customer support, WebRTC, the move to omnichannel support, and many other efforts that have driven better customer experiences.

Roundtable Date: October 10, 2018

➤ **Business Intelligence and Analytics: A CRM Perspective**

The proliferation of data tools has made their use far more widespread throughout an organization—and made them less intimidating to non-technical employees. The result is a higher level of data literacy across the board as more employees see the value in access to information. This Best Practices installment focuses on business intelligence and analytics tools and their practical applications for CRM.

Roundtable Date: August 1, 2018

OCTOBER 2018

➤ **Proactive Customer Service: Anticipating Customer Needs**

There are many reasons to provide superb customer care, but getting noticed for your efforts can be difficult. Shifting from purely reactive to more proactive customer care can get the attention, in a good way, of customers. Proactive customer care is a visible differentiator that translates into better customer experiences, loyalty, and positive attitudes toward your brand. Join us in this month's Best Practices installment and share your expertise and recommendations with our readers.

Roundtable Date: December 5, 2018

➤ **CRM and Ecommerce: A Winning Combination**

Every online store spends an enormous amount of effort trying to attract new customers while retaining previous ones, or at least trying to entice them to purchase again. This is where a CRM strategy and solution can help. An ecommerce CRM system can provide online stores with information about customer habits, interests, and shipping preferences, and even help to create a clear customer journey map for developing better marketing strategies and increasing sales. With so many options available to consumers, a strong CRM and ecommerce strategy is crucial to online merchants. Join us in this month's Best Practices installment and share your wisdom with our readership.

Roundtable Date: November 14, 2018

NOVEMBER 2018

➤ **Choosing the Right Marketing Technology Stack**

Investment in marketing technologies has exploded in the past few years. Amazingly, CMOs have outspent CIOs in 2017, according to a report by Gartner. Separate solutions are applied to each stage in the customer journey—awareness, acquisition, conversion, retention, advocacy, data collection, and analysis. The majority of businesses now have more than two dozen applications in their marketing technology stacks, and integrating the components is no easy task. In this month's Best Practices installment, we will take a look at the issues to be considered when building a well-planned marketing technology infrastructure.

Roundtable Date: July 25, 2018

➤ **Highly Effective Customer Experience Strategies**

According to a recent report by Grand View Research, the global customer experience management (CEM) market is expected to grow at a compound annual growth rate of 22 percent between 2017 and 2025. Another report, by Econsultancy, found that 72 percent of business leaders pointed to customer experience as the single most exciting opportunity; it topped the list for the third straight year. But what are the best strategies for creating highly effective customer experiences? This Best Practices installment will offer our readers your expert guidance for improving their own CX initiatives.

DECEMBER 2018

➤ **Call Centers to Customer Engagement Centers— Make the Transition Now**

Providing seamless customer support across all channels is the goal of most organizations. Unfortunately, many organizations still have not been able to create a true customer engagement model. Agents don't have the information they need; information is still in separate silos and out of reach; and the customers' journeys are still interrupted when they change channels. But some organizations have managed to make the transition, despite facing all of these obstacles. How did they do it? That's the topic of this month's Best Practices installment, where our readers look to experts who have seen what works and how to make that transition.

Roundtable Date: February 28, 2018

➤ **AI-Powered Sales Teams**

According to a report by McKinsey Global Institute, 40% of the time spent on sales activities can be automated if companies would just adopt current AI technologies. And AI can do far more than just automate routine administrative tasks; it can also uncover better leads; provide stronger, more relevant information; shorten sales cycles; and assist salespeople with closing deals. Join us in this Best Practices installment and show our readers how to help their revenue producers be more successful with AI sales tools.

Roundtable Date: August 29, 2019

➤ **Top 2018 Innovations in CRM (Roundtable Webcast only)**

What innovations have been produced in the world of customer relationship management in 2018? Join us on this final roundtable webcast of the year, where we ask participants to give us their take on the significant breakthroughs of 2018 and how they contributed to their customers' successes throughout the year.

Roundtable Date: December 12, 2018
