### ONE COMPLETE MARKETING PROGRAM

# **Conversational Al** for Better Customer Experiences

The next big thing in customer experience (CX) is conversational artificial intelligence (AI), which is projected to grow from \$2.7 billion in 2018 to more than \$11 billion by 2023.

When it comes to self-service, customers want highly personalized, data-driven digital experiences, and conversational AI is poised to fill that need with advanced voice interfaces and chatbot technologies. By one prediction, over 85% of business interactions are expected to be managed without a human by 2020.

Join us in this new Best Practices topic and educate our readers on how they can leverage these new technologies to build better experiences for their customers.
