Designing a Customer Engagement Center

The evolution from call center to contact center to customer engagement center (CEC) reflects an evolving vision for an organization’s central customer-facing entity, a vision that centers on delivering consistent, high-quality customer experiences (CX).

A well-designed CEC will provide highly personalized customer communications from every current and future channel for interacting with customers. It emphasizes a single view of the customer, which includes knowing their previous history, their intent, their sentiments, and even proactively anticipating their needs. The improvements in CX will drive all of the positive outcomes and operational efficiencies for the customer service organization that CEOs love.

Add your recommendations to this month’s Best Practices installment and educate our readers on how to design a customer engagement center to maximize business outcomes and intelligently leverage the new crop of AI-assisted solutions, which will only increase in the next decade.
