Smart Customer Service White Papers

Survey: Online Shoppers Want Better Delivery and Return Options
Retailers that remove obstacles can improve their sales and marketing efforts

What matters most to online shoppers? Hint: It’s all about the shopping experience, and that includes shipping and returns. A UPS/comScore survey conducted with more than 3100 online shoppers reveals insights into what makes online shoppers buy more. Learn more about the comScore findings in this White Paper.

Why Is Customer Experience Management so important?
Strategies & Solutions for improving Customer Experiences - An Enghouse Interactive White Paper

As the market for goods and services saturates, commoditization eliminates price as a differentiation, and as the customers become more and more sophisticated, how do companies compete for new business and retain existing ones. They must differentiate themselves by innovating, offering great customer service, and by providing exceptional customer experience. Customer experience covers all phases of a customer’s lifecycle, from awareness, discovery, attraction, interaction, purchase, use, cultivation and advocacy. Great customer experience cannot only cultivate loyalty for your products it can also develop your most loyal customers into strong advocates for your brand.

BANNER SPECIFICATIONS

The SmartCustomerService.com site offers a variety of banner size options, as well as rich media advertising opportunities. The site utilizes DoubleClick for Publishers (DFP) third-party ad serving technology (formerly Google Ad Manager).

All banners must conform to the following specifications:

Maximum file size is the same for either static, animated, or rich media creative.

All ads are served through DoubleClick for Publishers (DFP).

Testing destinationcrm.com requires 2 business days for testing of rich media and 5 business days for testing of new technology banners.

Reporting
Reports detailing campaign performance are available.

Submission Instructions
Submit banner creative to your sales representative:

Eastern & Central: adrienne@infotoday.com
Mountain & Pacific: dennis@infotoday.com

Creative Specifications

Flash files (.SWF) must be in Flash 10 (or earlier) format and can use Action Script 3 (or earlier versions). Flash 11 is NOT acceptable.

clickTAG Code
On all Flash ads for DoubleClick for Publishers, the .SWF file needs to contain an invisible “action button,” the same size as the ad. This button contains code that sends people who click on the Flash ad to the DFP server, where it increments the click-through count, then gets redirected to the click-through URL.

There needs to be an action object applied to the button (not the frame). Here is the script that needs to be copied into the action panel for Action Script 2:

```actionscript
on (release) {
    getURL(_level0.clickTAG, "_black");
}
```

For Action Script 3 (change ‘Link_1’ to the instance name of your clickTAG button):

```actionscript
Link_1.addEventListener(MouseEvent.MOUSE_UP , function(event: MouseEvent): void {
    var sURL: String; if ((sURL = root.loaderinfo.parameters.clickTAG)) {
        navigateToURL(new URLRequest(sURL), "_blank");
    }
}
```

Advertisers should NOT embed their click-through URL in the .SWF ad. That URL is contained in the coding that serves the Flash ad on DFP, and is specified in that code as the “clickTAG” variable. N.B. “clickTAG” must be spelled exactly as above (“click” in lower case, and “TAG” in capital letters).

Counting Impressions & Clicks
DoubleClick for Publishers counts impressions only when a creative is viewable in a user’s browser. Clicks are recorded at the moment it writes the redirect to the system. We employ aggressive filtering detection methods for both impressions and clicks.
